### **Examiner's Amendment**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Allen M. Krass on July 19, 2006. The application has been amended as follows:

In claims 7, 10, 16, line 1, "2" has been changed to - - 1 - -.

### ***Response to Election***

Applicant's election of Species I, Figures 1-3, without traverse has been received on May 15, 2006. Claims 2 and 18 were previously canceled. While claim 5 is drawn to non-elected invention in response to the restriction requirement, it has been determined that all pending claims 1, 3, 4, 6-17, and 19 are drawn to allowable subject matter. Therefore, non-elected claim 5 has been rejoined and examined.

Claims 1, 3-17, and 19 are allowed.

### ***Drawings***

The drawings filed January 9, 2002 are objected to because in Figure 3, the lead line for numeral 37 (bottom left of Figure 3) is directed to the spacer member drawn in phantom. Numeral 37 is described in the specification as the surface of the interior channel. Also in Figure 3, numeral 34 lacks a lead line.

Also, the following features are missing in the drawings: "interior volume 39" (Specification, page 6), "spacing bars 27" (Specification, pages 4-8), "an interior volume 82" (Specification, page 8), "an open side 84" (Specification, page 8), "a fifth step 100" (Specification page 9), and a final step 102" (Specification, page 9). Appropriate correction is required.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner,

Art Unit: 3635

the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
